I need to understand why housing prices is so higher in India.

Average house price were forecast to rise 6% next year in 2024.

I think we do not expect a housing market in worldwide.

Are there any affordable neighbourhoods left in the city?

ANALYSING HOUSING PRICES IN METROPOLITAN AREA OF INDIA

Just avoid tax related items be sigma

Ask yourself: Does the price feel fair?

Keep in mind that real estate market can be complex and influenced by various factors

Check out comparable properties on the market

Despite the rising housing price which is primarily owing to rising raw material losts.

I feel the prices are rising in the metropolitan areas is due to abundant of job opportunity low supply of flats etc.

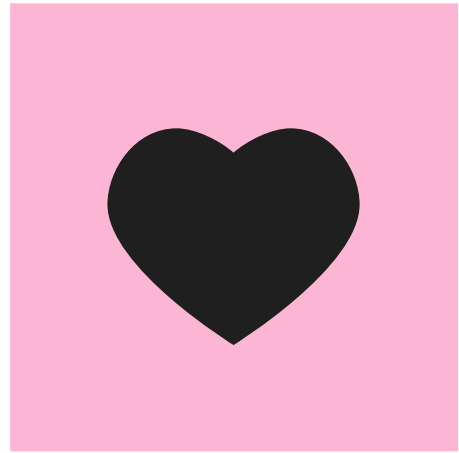

Stress and frustration about making the wrong investment decisions

When housing price are lower, the wealth of homeowners is reduced.
